February 6, Sunday

8:30 – 9:30   Breakfast

10:00 – 10:10   Opening ceremony

FIRST MORNING SESSION   Chairman: **Gyula Maksa**

10:10 – 10:55   **Roman Ger**
Stability of isometries – a half-century story
11:00 – 11:20   **Judit Makó**
On strong $(\alpha, \mathbb{F})$-convexity

11:25 – 11:50   Coffee break

SECOND MORNING SESSION   Chairman: **Attila Gilányi**

11:50 – 12:10   **Tomasz Szostok**
Some connections between ω-convexity and strong convexity
12:15 – 12:35   **Tibor Kiss**
The Stone–Weierstrass theorem – generalizations and applications
12:40 – 13:00   **Włodzimierz Fechner**
On Hlawka's inequality

13:30 – 14:30   Dinner

FIRST AFTERNOON SESSION   Chairman: **Roman Ger**

15:00 – 15:45   **Maciej Sablik**
Some functional equations connected with actuarial mathematics
15:50 – 16:10   **Gyula Maksa**
On a family of affine functions

16:15 – 16:40   Coffee break

SECOND AFTERNOON SESSION   Chairman: **Judit Makó**

16:40 – 17:00   **Tamas Glavosits**
Convexity and symmetry
17:05 – 17:25   **Żywilla Fechner**
On some integral generalizations of trigonometric
functional equations

18:00 – 19:00   Supper

February 7, Monday

8:30 – 9:30   Breakfast

FIRST MORNING SESSION   Chairman: **Maciej Sablik**

10:00 – 10:45   **Attila Gilányi**
Solving systems of linear functional equations with computer

10:50 – 11:10   **Tomasz Kochanek**
From the three-space problem to stability of vector measures

11:15 – 11:40   Coffee break

SECOND MORNING SESSION   Chairman: **Szabolcs Baják**

11:40 – 12:00   **Gergő Nagy**
Entropy preserving maps and isometries on quantum structures

12:05 – 12:25   **Patrícia Szokol**
Properties of quantum relative entropy

12:30 – 12:50   **Łukasz Dawidowski**
An application of the fractional powers of sectorial operators
to construction of scales of Banach spaces

13:30 – 14:30   Dinner

FIRST AFTERNOON SESSION   Chairman: **Tomasz Szostok**

15:00 – 15:20   **Csaba Gábor Kezi**
On two different concepts of subquadraticity

15:25 – 15:45   **Mateusz Jurczyński**
On the Morrey conjecture and related results

15:50 – 16:10   **Szymon Draga**
There is $2^{\mathfrak{c}}$ automorphisms of complex numbers

16:15 – 16:40   Coffee break

16:40 – 17:30   **PROBLEMS AND REMARKS**   Chairman: **Tomasz Kochanek**

Among speakers:
**Roman Ger, Włodzimierz Fechner, Tamas Glavosits,
Tomasz Szostok, Mateusz Jurczyński**

18:00 – 19:00   Supper

February 8, Tuesday

8:30 – 9:30   Breakfast

                 FIRST MORNING SESSION   Chairman: **Włodzimierz Fechner**

10:00 – 10:20   **László Vajday**
Moment property of exponential monomials
on Sturm–Liouville hypergroups
10:25 – 10:45   **Radosław Łukasik**
Invariant means on Banach spaces
10:50 – 11:10   **Szabolcs Baják**
On the equality problem in a general class of means

11:15 – 11:25   Closing ceremony

13:00 – 14:00   Dinner
